

Velcro T-tag attachment

Please follow these instructions to ensure optimum performance from your ChronoTrack timing tag

Check number on label on bag is your race number

Insert velcro strap into bottom slot of your T-tag

pull strap fully through tag

Wrap strap around ankle and thread through buckle

Pull strap to tighten then firmly press closed.

The T-tag is now ready to record your times.

Note orange plastic holder is against skin. If wearing under a wetsuit the foam cushion keeps the wetsuit from direct contact with the chip
