Sports Event Timing

Active tag chainstay attachment

Please follow these instructions to ensure optimum performance from your ChronoTrack timing tag.

If you have difficulty following these instructions please contact a Timing Official for assistance

! Check that the number on the label is your race number. The tag is programmed with the number on the label.

The active tag is supplied in a clip with rubber holder

Slide a cable tie through each small slot in tag clip

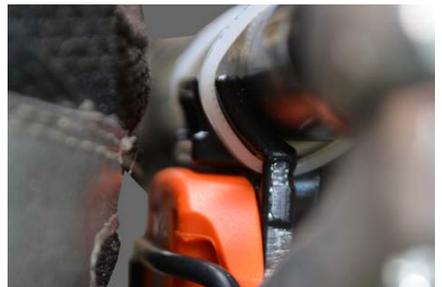

Ensure serrations are facing curve ...

Place indicated curves of clip on lower section of chainstay at required distance and pull ties firm.

Check tie tension and clip alignment **then cut excess tie.**

The tag and holder in place ready to record your times.

Please note **your ChronoTrack timing tag with clip must be returned immediately after the event.**

Failure to return your tag and clip will result in you being charged for a replacement tag and clip.

If you lose your tag during the event please advise an Event Official to enable a manual time to be recorded.
